WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/EP2004/013936

Box No. V

Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	<u>1-10</u>	YES
	Claims	_____	NO
Inventive step (IS)	Claims	<u>1-10</u>	YES
	Claims	_____	NO
Industrial applicability (IA)	Claims	<u>1-10</u>	YES
	Claims	_____	NO

2. Citations and explanations:

The present invention relates to a synergistic fungicidal mixture of a first active substance (triazolopyrimidine of the formula (I) and a second active substance (dinocap, of the formula (II)).

D1 (WO 98/46607) describes (I) as a possibility within a Markush formula and the possibility of achieving a synergistic effect with all active substances, *inter alia* (II). To arrive at the present solution, two choices would have to have been made: one within the list of the preferred compounds (I) and one within the list of the active substances (II).

D1 does not disclose the claimed compositions. Moreover, on the basis of the *a priori* unforeseeable aspect of synergy in general, a person skilled in the art would not have expected such a synergistic effect.

The present application therefore satisfies the criteria mentioned in PCT Article 33(2)-(4) because the subject matter of the present claims is novel in the light of the prior art outlined in the Regulations (PCT Rule 61.1-64.3), is based on an inventive step (PCT Rule 65.1-65.2) and is industrially applicable.
